

## D4 Drinking Water System

### WHO IS TROJAN?

We are the world leader in UV technology, serving large cities, major water bottlers, and tens of thousands of private homeowners. For more than 30 years we have led with technology advances that allow us to provide you with complete water confidence.

### WHAT IS UV?

Ultraviolet (UV) light is at the invisible, violet end of the light spectrum. The water treatment industry uses a high-powered form of UV light called UV-C or "germicidal UV" to disinfect water.

### WHO USES UV DISINFECTION SYSTEMS?

For more than 30 years, institutions, consumers and businesses have relied on Trojan's environmentally friendly UV technology to disinfect their water supplies. Top candidates for UV disinfection systems include:

- Rural homes and cottages
- Nursing homes
- Hospitals
- Schools
- Hotels
- Restaurants
- Resorts and holiday camps

TROJAN  MAX™

## Ultraviolet (UV) Light is the Right Choice for Water Purification

### Instills Water Confidence

Owner's of a TrojanUVMax can drink with confidence knowing 99.99% of illness-causing microorganisms, including *E. coli*, *Cryptosporidium* and *Giardia* are destroyed, supplying safe water to every tap.

### Environmentally-friendly and Chemical Free

UV water purification is a natural process that adds no chemicals and does not affect the taste or odor of water. Other methods, such as those that use chlorine, may create harmful chemicals that have been linked with serious illnesses, such as cancer.

### Trouble-free Maintenance

Maintenance is simple and can be completed in minutes - without tools. It's as easy as replacing the UV lamp once a year and periodically cleaning the sleeve.
